ORDER

Having considered the Motion to Alter or Amend Judgment and the record herein, it is this 21st day of February, 2013 hereby

ORDERED, the Motion is denied.

The Court was persuaded by a preponderance of the evidence, that ACS Xerox is an operator of the speed monitoring system. Consequently, the fees paid to ACS Xerox on a per-citation issued basis violate Transportation Article 21-809(j)(2). The State admits that Baltimore County entered into a contract with ACS Xerox requiring ACS Xerox to "operate" 22 active speed cameras. The testimony of the witnesses confirmed that ACS Xerox is involved in the operation of the speed cameras.
